Re: Comments From Southeastern Utah Association of Local Governments and  
Reclamation Surety, M/015/050, Emery County, Utah

Dear Mr. Shajary:

Please see the attached comments from the Southeastern Utah Association of Governments, concerning the generation of dust on the county road, adjacent to the San Rafael Gypsum Project. Please advise us concerning any steps you have taken or are currently taking concerning mitigation of the dust problem, described in this correspondence.

Also, the Division has not yet heard from Georgia Pacific concerning the reclamation surety for the site. A letter was sent to the BLM and copied to you, dated October 28, 1993, which explained the surety options. The Division will leave it up to Georgia Pacific to take care of the details concerning the surety. However, we will set a deadline for the posting of the surety by January 28th, 1994.

Thank you for your assistance.

Sincerely,

Holland Shepherd  
Senior Reclamation Specialist
